PREFACE

With this issue THE PERIODICAL KEY completes the indexing of publications for the year 1960. Indexes for publications issued during the period January to April were published monthly by Mrs. Betty Jean Clark of Mason City, Iowa. When Mrs. Clark ceased publication of the index, it was purchased by The Methodist Publishing House, and responsibility assumed for fulfilling subscriptions placed with Mrs. Clark prior to August 1960. This will be the last issue of THE PERIODICAL KEY as an index to the present list of publications.

Beginning with the 1961 materials, The Methodist Publishing House will publish an index to a list of publications differing slightly from the present list under the title of THE METHODIST PERIODICAL INDEX. All materials in the new index will be Methodist publications. An announcement will be sent to subscribers when the first issue of this index is ready for publication.

Aside from the change in name and the slight alteration of the list of materials indexed, the new publication will appear in the present format and style. As with this issue of THE PERIODICAL KEY, the new index will be designed for use by church, college, and seminary librarians, and others interested in research in Methodist periodicals.

USING THE INDEX

ARRANGEMENT

Authors and subjects (and title entries when made) are arranged in one alphabet.

Book reviews are entered under "Book reviews" by author and under the subject of the book. Joint authors of book reviews do not have separate entries. Books which do not have a personal or corporate author are entered under title or under a form entry such as "Bible." Bible entries are arranged by order of books in the Bible.

Short stories have an author entry and a title entry.

All poems are entered by author and also under "Poems" by title.

Anthems are entered under "Choruses - sacred" by title; hymns with music under "Hymns (includes music)"; and hymns without music are classified as poems.

Films, film strips and other audio-visual material are entered under "Audio-visual aids." Recordings of any media are included in this class.

Historical subdivisions are arranged in chronological order of events cataloged. Geographical subheads follow other subheads.

An article in which the major emphasis is pictorial has "illus." in its collation. No reference is made to other illustrations.

CROSS REFERENCES

"See" references are made from various form of entries to the established form. "See also" references are made to related subjects under which additional information may be found. "See" references under "Book reviews" refer to other entries under "Book reviews."
